PRESS RELEASE — FOR IMMEDIATE RELEASE

Malta's Largest Psychedelic Conference Returns This September - The Jungle Party Expands to Two Days for the First Time

The Jungle Party, Malta's annual community-run psychedelic conference on consciousness, returns to Tigullio, St Julian's, on 25 and 26 September 2026 for its fourth edition - expanding to two full days for the first time, with almost 20 hours of workshops alongside talks, local art, live performances and music across four spaces, our aim is to bring awareness to the new science of psychedelic medicine which helps tremendously with Mental Health issues previously thought to have no cure, including depression, addiction and PTSD.

Titled **The Jungle Party 4 TranscenDance** - with the "4" read as "for" - this year's edition brings together speakers, practitioners, artists and musicians to explore consciousness through science, philosophy, breathwork, meditation, art, music and dance. The idea is simple: to create a space where people can encounter new perspectives, question how they understand themselves and reality, and connect with others curious about the same questions.

The Jungle Party uses "psychedelic" in its original sense - from the Greek *psyche* (mind) and *deloun* (to reveal), meaning "mind-manifesting" or "to reveal the mind". Now in its fourth year, the event approaches consciousness as a subject to be explored rather than an unanswered question with no attributes to discuss. It is educational and community-oriented, and no psychoactive or illegal substances are provided or sold.

Across four spaces, the programme features 11 workshops - totalling 19.5 hours of facilitated sessions - alongside a full programme of talks. Highlights include:

- **Paula**, a Colombian pharmacist, presents *Con-Science*, examining the chemistry of psilocybin and how current research explains its effects on perception, the nervous system and the brain.
- **Christoph**, Certified Grof® Legacy Breathwork Facilitator and long-standing assistant to Dr Sylvester Walch, leads a full **Holotropic Breathwork** session — a drug-free practice using breath and music to reach expanded states of consciousness — as well as a Circling & Authentic Relating workshop.
- **Alenka and David**, "**The Energy Doctors**", ask what happens when reality proves less solid than it seems in their talk *The Transparency of Reality*.
- Further talks include **Carmelo** on consciousness and the ocean, **Ray** on emotion and inner alignment, and founder **Raúl Pessoa** on *Reality Cheat Codes*.
- Workshops range from **medicine music**, **ceremonial cacao** and **voice activation** to **yoga**, **meditation**, **kundalini activation** and a **women's circle**, with the festival's signature DJ line-up carrying both nights to close.

"The Jungle Party is offered by a group of friends who believe a different way of seeing is possible. We run this as a labour of love — not-for-profit, and most years at a loss — because we think Malta needs a space to question the stories we've inherited about reality, and to imagine a better future than the one our past predicts. With mental health challenges growing on the island, we're offering

nearly twenty hours of healing workshops, a full programme of talks, and a gallery of local artists — wrapped inside a beautifully crafted party. The psychedelic renaissance is a global conversation about consciousness and healing, and Malta can be part of it. Come see it for yourself,” said **Raúl Pessoa, founder of The Jungle Party**.
